

New 4 Series Heat Pumps

C US

SANYO is striving to produce air conditioners that

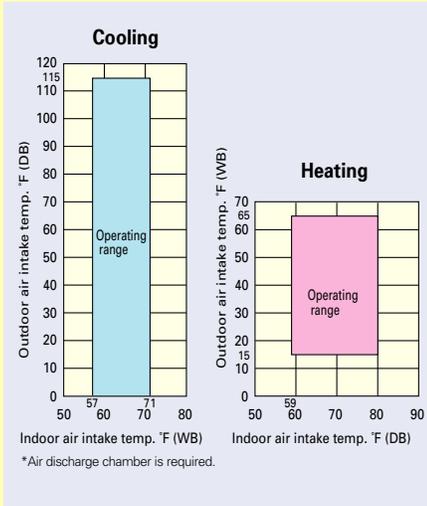

FEATURES

High technology features

Low ambient operation

Cooling can be performed throughout the year for computer rooms, banquet halls, etc. Wider operation range covers outdoor temperatures of as low as 0°F for cooling, 15°F for heating.

Microprocessor-controlled Operation

Microprocessor control ensures that the temperature and humidity levels in the room are always comfortable.

Common-use indoor units with "ECO MULTI" system

Even more, these indoor units can be connected with outdoor unit for ECO MULTI in case of design changes for air conditioning, allowing more flexible designs than before.

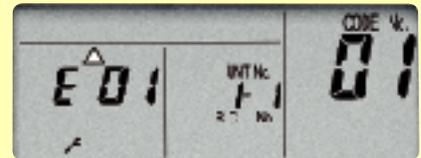

Automatic restart function for power failure

Even when power failure occurs, preset programmed operation can be reactivated once power is resumed.

Self-diagnosing function

Details of previous warnings are stored and can be verified on the liquid crystal display. This makes it easier to diagnose malfunctions, greatly reducing service labor. (Wired remote controller)

(RCS-SH80UG)

Simple, convenient features (Indoor Units)

3 Fan speeds and Automatic fan operation

Convenient microprocessor control automatically adjusts fan speed to High, Medium or Low, corresponding to room sensor and maintains comfortable airflow throughout the room.

Air Sweep Control

The air sweep function moves the flap up and down in the air outlet, directing air in a "sweeping" motion around the room and providing comfort in every corner.

ON/OFF Timer

Remote controller (RCS-SH80UG)

ON/OFF timer can be set to 0.5 hour gradations (max. 72 hours).

Hot Start Heating System

Right from the start, air is warm and

comfortable. The Hot Start Heating System prevents any cold blasts at the beginning while the heat pump is warming up, or even defrosting. (Heat pump only)

Dry mode

By intermittent control of compressor and indoor unit's fan, "New Mild Dry" gives you comfort. It realizes efficient dehumidification according to room temperature.

Filter sign

Filter sign informs you when maintenance is necessary.
2,500 hrs: X, T-types
150 hrs: K type

(RCS-SH80UG)

Built-in drain pump

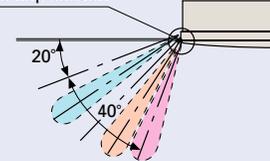

Max. head 30 inches from the bottom of the unit. (condensate pump is only for allowing drain line to meet minimum gravity flow requirements.)

Comfortable auto-flap control

When the unit is first turned on, flap position is automatically adjusted in accordance with the cooling or heating operation. This initial flap position can be preset within a certain range, for both cooling and heating. Auto button is included for continuous movement of flap to vary airflow direction.

Auto flap section

are friendly to both people and the environment.

CONVENIENT SYSTEM CONTROLS

Optional Parts

Wired remote controllers (Optional)

Remote controller (RCS-SH80UG)

- Group (collective) control of up to 8 indoor units (maximum) with a remote controller is possible.
- Control with multiple remote controls (main/sub) is possible (max. 2).
- Operating status appears on a large crystal display, and service check function is also provided.
- Comes with 72-hour ON/OFF timer.
- Size (inch): 4-23/32 (H) x 4-23/32 (W) x 5/8 (D)

System controller (SHA-KC64UG)

- Used in combination with remote controllers, the system controller can control up to 64 groups of indoor units (max. 64 indoor units).
- Separating the 64 indoor units into 4 zones, each zone can be controlled individually.
- Up to 16 groups (indoor units) can be registered to each zone.
- Collective control and individual group (unit) control can also be performed.
- System without remote controller is also available.
- Up to 2 system controllers (1 main, 1 sub) can be installed in a system.
- Alarm and operation outputs for an external collected signal are available (potential free contact).

Weekly timer (TM-SH80UG)

- Program covering a week, in which the operation can be stopped 3 times per day, can be set.
- * In case of power failure, the timer stores recorded programs for up to 100 hours.
- Temporary cancellation with cancel button is also possible.
- Can be used concurrently with remote controller and system controller.
- Size (inch): 4-23/32 (H) x 4-23/32 (W) x 5/8 (D)

Wireless remote controllers (Optional)

PRODUCT LINE-UP

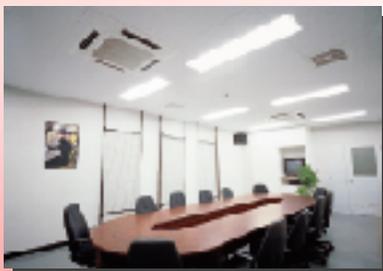

U series

K series

Capacity BTU/h	24,000	36,000	42,000
MODEL (System)	24UH42 (U series) 24KH42 (K series) 24XH42 (X series) 24TH42 (T series)	36UH42 (U series) 36KH42 (K series) 36XH42 (X series) 36TH42 (T series)	42XH42 (X series) 42TH42 (T series)
U series Concealed-Duct Type	 UH2442	 UH3642	
K series Wall-Mounted Type	 KH2442	 KH3642	
X series Ceiling-Recessed Type	 XH2442 (Unit No. XH2442 Air Grille No. PNR-XH2442)	 XH3642 (Unit No. XH3642 Air Grille No. PNR-XH3642)	 XH4242 (Unit No. XH4242 Air Grille No. PNR-XH3642)
T series Ceiling-Suspended Type	 TH2442	 TH3642	 TH4242
Outdoor Units	 CH2442	 CH3642	 CH4242

NOTE: Model numbers of the X series model shown above refer to the main units and intake panels when combined.
However, main units and intake panels also have their own individual model numbers.
The remote control is sold separately. (Refer to page 2.)

X series

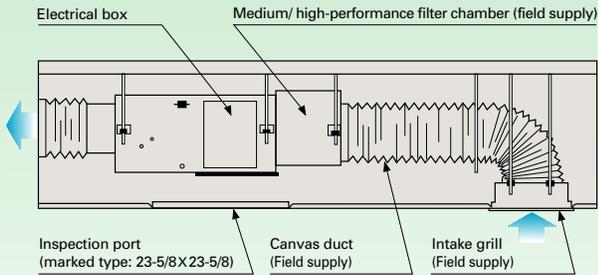

T series

Concealed-Duct Type (U-series)

● **Outline diagram with medium- or high-performance filter installed.**

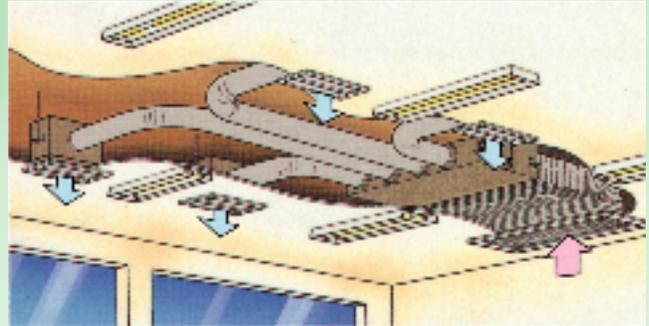

● **Built-in drain pump**

Max. head 30 inches from the bottom of the unit.
(condensate pump is only for allowing drain line to meet minimum gravity flow requirements.)

● **Installation Example**

The basic systems in the concealed-duct type air conditioner.

Above picture shows the standard ducting system, where air is taken in from the back of the unit. This system is useful for places which need extensive air conditioning, including conference halls, showrooms, and restaurants.

Wall-Mounted Type (K-series)

KH2442

KH3642

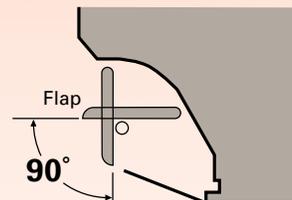

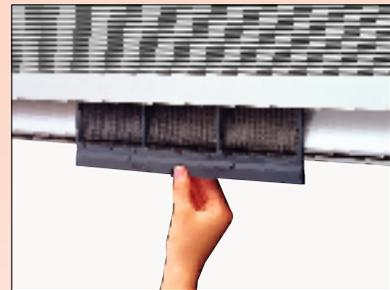

● **Easy installation**

● **Air sweep function**

The air sweep function moves the flap up and down in the air outlet, directing air in a "sweeping" motion around the room and providing comfort in every corner.

● **Easy-to-clean Air Filter**

Air Sweep Control

3 Fan speeds and Automatic fan operation

Automatic restart function for power failure

Self-diagnosing function

Dry mode

Built-in drain pump

Hot Start Heating System

Ceiling-Recessed Type (X-series)

The 4-way air flow makes it comfortable right to every corner. Excelling in quietness and needing no special installation space, it suits all the requirements of offices, stores, etc.

● Built-in drain pump

Max. head 30 inches from the bottom of the unit. (condensate pump is only for allowing drain line to meet minimum gravity flow requirements.)

● Optimum air flow for heating and cooling

● Long-life filter

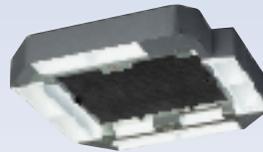

Long-life, maintenance-free filter good for approximately 2,500 hours is standard equipment. Filter sign on remote controller indicates if maintenance is needed. Anti-mold treatment for long-life filter, flap and drain-pan.

● Air-intake plenum (Option)

Fresh air can be obtained by using the fresh air intake of the unit. However, air-intake plenum (option) should be used to allow more fresh air for the room.

CMB-GSJ80U for XH24 type
CMB-GSJ140U for XH36, 42 type

*Air-intake box is supplied with air-intake plenum.

Air-intake plenum

Air-intake plenum

Ceiling-Suspended Type (T-series)

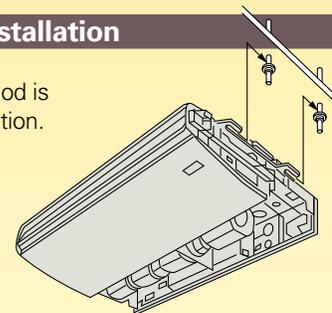

- All models newly designed.
- Reduced operation sound level.
- Improved serviceability/Easy installation.
- Stain and fade resistant surfaces.
- Long-life filter
- Quiet operation

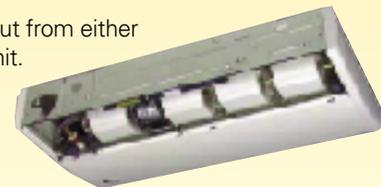

The ceiling-mounted unit is equipped with a highly efficient, multi-blade centrifugal fan that generates a powerful yet gentle airflow throughout the room. A redesigned aerodynamically tested louver structure minimizes operational sound even at high fan speed.

Installation

- External suspension method is employed for easy installation.

- Drain hose can be let out from either end (right/left) of the unit.

- Improved accessibility to electronic components (control box) for servicing.

Specifications

Concealed-Duct Heat Pump Type

Model No.	24UH42				36UH42	
Unit Model No.	Indoor/Outdoor Unit		UH2442/CH2442		UH3642/CH3642	
Performance	Capacity	BTU/h	24,000/23,400	27,000/26,500	34,500/33,000	37,500/36,500
	Air circulation (H/M/L)	cut.ft./min.	670/530/460		1,060/920/750

		Fan	○	○ (Individual)
	Temp setting		○	○ (Individual)
	Fan speed setting (Hi/Med./Lo/AUTO)		○	○ (Individual)
	Auto flap	Auto airflow direction setting	○	○
		Arbitrary airflow direction setting	○	○*
	Sweep (Flap swing)		○	○*
	72 hr. ON/OFF timer		○	✕
	Sensor temp. display		○	✕
	Self-diagnostic function		○	○
System	Central control (at hand inhibited)	✕	○	
	Group control	○ (Up to 8 units)	○ (Up to 16 groups)	
	Concurrent use with weekly timer	○	○	
Setting range	Cooling, dry (°F)	65~86		
	Heating (°F)	61~79		

In multi system, the following optional remote controllers can be selected, but there are some functions which cannot be controlled. So, confirm the usable functions from the following table at when selecting.

NOTE: * This function is not usable for indoor unit which is connected to a remote controller.

NOTE: If you use both remote controller and system controller concurrently, both controllers can be used on a last-signal priority basis.
